

SOLIDARE[®]
Conservatory awning

Your Solidare[®] dealer:

SOLIDARE®

Conservatory awning

Solidare, a one of a kind shadow solution. This high quality conservatory awning is fitted with the zip technology, known of our SolidScreen range.

This system offers numerous added advantages. For instance, the fabric is sealed around, without sagging sides (even in systems with large dimensions) and prevents illumination between the fabric and side guide. The Solidare conservatory awning is available in two models; The Solidare Veranda, which is installed upon the roof, and the Solidare Verso, which is installed beneath it.

A conservatory awning creates ambience, while serving as an accessory to your patio roof. No matter which Solidare model you choose, you are nevertheless assured of a strong, high quality sun protection system.
