Furore® Cassette

A quality terrace awning does not necessarily have to be expensive. The Picca provides striking proof of this. Thanks to its excellent price/quality ratio and efficient semi-circular design, the Picca has been one of our most popular terrace awnings for several years. The unique anti-jam system ensures that the awning always closes perfectly from any position. The rock-solid retractable arms ensure a free space under the awning. By using high-quality materials, such as aluminum and stainless steel, this screen is an example of absolute durability. To give it a personal touch and match it to the surroundings you can choose from a wide range of Tibely acrylic fabrics.
